## PERSONALIZED CARE PLANS

HomeWell works with each client to create an individualized care plan that pays attention to the things that are important to you. Your dedicated HomeWell Care Manager will take the time to get to know you to ensure that you are getting the help you want and need without any costly extras or inflexible packages. Your HomeWell Personal Assistant completes your individual care plan checklist and conducts brief satisfaction surveys at the start and end of every shift to make sure that

we consistently meet your care needs.

Your HomeWell Personal Assistant and Care Manager are here to help.

We realize that receiving “care” can seem embarrassing or erode self-dignity.

That’s why we call our caregivers “Personal Assistants” — we are there to assist with activities of daily living. Although subtle, the title “Personal Assistant” facilitates a very harmonious environment honoring both the client and employee.
